DID YOU KNOW?

Kids are supposed to get 60 minutes of physical activity every day! There are a lot of ways to get those minutes in, here are a few examples:

- Playing at recess
- Being active during P.E.
- Going to the gym
- Playing sports
- Following along with YouTube exercise videos
- Dancing
- Jumping on a trampoline or with a jump rope
- Walking or jogging

There are so many ways to move, the important thing is to find something you enjoy doing and JUST DO IT!

KIDS ON THE MOVE

Kids On The Move is a program of Sports Backers that gives kids the chance to have fun while being physically active. Through our running and fitness clubs, kids across the Richmond region are learning new exercises, incorporating fitness into their daily routines, and setting (and achieving!) goals. We offer youth running and walking events, such as the Atlantic Union Bank 10k Mini, as a way for kids to experience the thrill of crossing the finish line and earning a medal.

This program would not be possible without the countless hours dedicated by our volunteer coaches, the generous donations from individuals who believe in our mission, and the grant funding awarded by Altria, the John Randolph Foundation and the Memorial Foundation for Children. It takes a village to raise a child and the Kids On The Move village makes it possible for all kids, regardless of their socioeconomic background, to have access to our program and events.
