

KIDS ON THE MOVE

Mission Impossible

Materials Needed: Blind fold (1 per team), Cones, Obstacles (ex: bean bags, balls, cones, bowling pins, etc.)

Set Up:

1. Using the cones, create a relay line for each team. Place 1 cone at each of the the relay lanes.
2. Scatter your obstacles within the relay lines. Leave enough space between obstacles for kids to move safely.
3. Divide students into pairs (or teams for larger groups). Provide each pair/team a blindfold.

How To Play:

1. Pairs/teams will work together to move across the activity area to the opposite cone and back without touching any obstacles.
2. Assign the first 'agent'. This is who will wear the blindfold. The other team members are 'scouts'.
3. The 'scouts' will use verbal cues to guide their partner through the obstacle course. NO TOUCHING!
4. Once the first 'agent' makes it to the opposite cone, quickly switch roles and go back to the first cone.
5. If the 'agent' touches an obstacle, both players must return to the original cone, switch roles, and try again.
